

Pharmacy

Brief history of the industry

A place where medicines are compounded or dispensed. A doctor's prescription may be required depending on:

1. the medicines being dispensed and
2. the requirements of the country in which the medicines are being dispensed.

Conditions applicable

- MCC: 5912.
- For non-face-to-face pharmacy sales, Merchant Registration Program (MRP) registration is applicable– USD 500 or any other currency equivalent.
- We can only support Legally registered Pharmacies located in the UK. Details of their registration can be found at:
 - o <https://medicine-seller-register.mhra.gov.uk/>
 - o <https://www.nhs.uk/service-search/find-a-pharmacy>
 - o <https://www.pharmacyregulation.org/registers>
- Details of the responsible person to be provided.
- Check that the Pharmacy has the NHS Electronic Prescription Service.
- Anyone selling medicines to the public via a website must also be registered with MHRA and display a Distance Selling logo on every page of the website offering medicines for sale. The logo is linked to the website's entry in the MHRA's list of registered online sellers.
- We will consider eCom & POS.
- MOTO not allowed.

Requirements

- Pharmacy GPhC registration number
- Responsible Person GPhC registration number
- MHRA Company number
- We will only consider Licensed pharmacies for which we can obtain reasonable assurance that prescriptions are adequately verified
- Merchants need to provide supplier statements
- Merchants to have accurately and non-anonymously registered their domain names
- Merchants need to sell products that are legal in the country they are targeting.
